3. Sol Lewitt Structures 1965

In 1982, Sol LeWitt began to work with concrete blocks. As a common, readily available building material, it appealed to him as a modular component with
which to build large-scale outdoor structures. Pyramid (Münster) was originally installed in a botanical garden for the Skulptur Projekte Münster, an important decennial exhibition in Germany.

4. Sol LeWitt DAMN Magazine

Since the mid 80s he starts playing with another type of structure, made with concrete cylinder blocks - what he called Concrete Block Structures. For him one thing leads to another, and these, really look like a natural progression from the white and empty ones.

5. Circle with Towers LANDMARKS

The concrete block structures are laid by hand, one block at a time by local masons. Like many of LeWitt’s works, Circle with Towers demonstrates the artist’s generosity in welcoming others to interpret his work, including the artists and craftspeople who realize his artistic visions.

6. Sol LeWitt Institute of Contemporary Art Miami

Two outdoor concrete block structures by conceptual pioneer Sol LeWitt inaugurate ICA Miami’s public sculpture program. The concrete structures are important examples of LeWitt’s approach to Minimalism and composition, and an expression of the artist’s engagement with urbanism and intervention with public space.

7. Sol LeWitt’s Concepts and Structures

Sol LeWitt used lines, geometric solids, ratio, patterns, formulas, and permutations to create his modern structures and wall paintings. The ziggurat and set-back skyscraper had the greatest influence on LeWitt’s Four-Sided Pyramid.

8. Sol LeWitt

9. Sol LeWitt
10. Sol LeWitt

Sol LeWitt came to fame in the late 1960s with his wall drawings and "structures" (a term he preferred instead of "sculptures") but was prolific in a wide range of media including drawing, printmaking, photography, painting, installation, and artist's books.

11. Sol LeWitt s quotCircle with Towersquot Acquired by The

The concrete block structure "Circle with Towers" by Sol LeWitt (1928-2007) has been purchased by Landmarks, the public art program of The University of Texas at Austin, from the Madison Square Park Conservancy in New York.

16. Sol LeWitt ampquotConcrete Block Structureampquot Fred

LeWitt's construction serves as the focal point of an exhibition aptly titled "Sol LeWitt: Concrete Block Structure," which also features his Wall Drawing 664 (1990).

17. Sol LeWitt amp Fred Sandback

In 1985, Sol LeWitt's first cement Cube was built in a park in Basel, Switzerland and marked the debut of a series of experiments with concrete block structures. The choice of material originated during LeWitt's residence in Umbria, Italy in the early eighties.

18. Sol LeWitt Art Bio Ideas TheArtStory

As one of the first open structures, Standing Open Structure Black can be seen as the standard building block for much of LeWitt's later work. As with his Minimalist painting, LeWitt's simplified sculptures of this period challenge the notion of completeness and suggest that any additions to the basic elements of a work of art are excessive.

19. Sol LeWitt Structures 1965

including concrete block and fiberglass, stimulating experimentation with non-geometric, irregular forms on an increasing scale.

20. Sol LeWitt

Sol LeWitt: Structures includes early Wall Structures and three Serial Projects from the 1960s; four Incomplete Open Cubes from the 1970s; numerous painted white wood pieces from the 1980s: Hexagon, Form Derived from a Cube, Structure with Three Towers, among others as well as Maquettes for Concrete Block Structures from the late 1990s.
21. Sol LeWitt's Circle with Towers Acquired by The University

The structure is made of concrete blocks that form a twenty-five-foot-diameter ring, which is intersected by fourteen-foot-high towers at equal intervals. It represents the modular structures and simple, geometric forms for which LeWitt is acclaimed. He pioneered the development of Minimalism and Conceptual art in the 1960s and 1970s.

22. Five

The concrete block structures are laid by hand, one block at a time by local masons. Like many of LeWitt's works, Circle with Towers demonstrates the artist's generosity in welcoming others to interpret his work, including the artists and craftspeople who realize his artistic visions. LeWitt introduced concrete block into his work in the 1980s.

23. Biography of Sol LeWitt Conceptual Artist

He started working with concrete in 1985 creating the cement "Cube" for a park in Basel, Switzerland. Beginning in 1990, he created multiple variations on a tower of concrete blocks for locations around the world. One of LeWitt's final structures was the 2007 design for "9 Towers" to be constructed in Sweden out of over 1,000 light-colored bricks.

24. Sol LeWitt Pace Gallery

25. Sol LeWitt

In 1987 Sol LeWitt designed two sculptures made of aerated concrete blocks and installed them on the symmetry axis of Münster's palace gardens. In the botanical garden he built a white, tiered pyramid that tapered to a point towards the western edge of its square base, reaching the same height as the breadth its front side.
